Subject: Notification of Parents' Right to Know Teacher Qualifications

The Federal Elementary and Secondary Education Act (ESEA) requires schools that receive federal Title 1 funding to notify parents of their rights to know the professional qualifications of the classroom teachers who instruct their children.

Two Rivers Community School will provide you with this information in a timely manner if you request it. Specifically, you have the right to request the following information about each of your child's teachers:

- Whether the teacher has met state qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- Whether the teacher is teaching under the emergency or provisional status because of special circumstances.
- The teacher's college major, whether the teacher has any advanced degrees, and the field of discipline of the certification or degree.
- Whether paraprofessionals provide services to your child, and if so, their qualifications.

Two Rivers is committed to providing quality instruction for all students and does so by employing the most qualified individuals to teach and support each student in the classroom. Much of the information listed above is available on the school website, but if you would like to receive additional information, please contact Michaela at michaela@tworiverscommunityschool.net.
